

Planned Administrators, Inc. (PAI) Continuation of Care (CoC) Request Form

Purpose of Transition of Care and Continuation of Care

If circumstances change and a member's provider is not in-network or no longer in-network, PAI strives to make the transition seamless. A member with these circumstances can make a special request to have benefits with his or her original provider paid at the in-network level for a limited amount of time.

Continuation of Care for Serious Medical Condition allows benefits for members to continue care with a network provider that is leaving the network. Continuation of care requires approval from medical management. If approved, members are allowed network level benefits for a limited amount of time.

Examples of medical or behavioral health conditions that may meet Continuation of Care guidelines:

- A member who is undergoing a course of treatment for a serious and complex medical or behavioral health condition from a provider or facility
- A member who is currently undergoing a course of institutional or inpatient care from a provider or facility
- A member who is scheduled to undergo non-elective surgery from the provider
- A member who is pregnant and undergoing a course of treatment for the pregnancy from a provider or facility
- A member who is determined to be terminally ill and has a life expectancy of 6 months or less

Serious and Complex Condition:

- A member with an acute illness that is serious enough to require specialized medical or behavioral health treatment to avoid the reasonable possibility of death or permanent harm
- · A member with a chronic illness or condition that is life threatening, degenerative, potentially disabling or congenital
- A member that requires specialized medical or behavioral health care over a prolonged period of time

Continuation of Care may be available for a limited time or until the member is no longer a Continuation of Care patient for a period of ninety (90) days, whichever is the shorter time.

Examples of medical or behavioral health that may not meet Continuation of Care guidelines, depending on the circumstances:

- Routine examinations, vaccinations, testing or health assessments
- Stable chronic conditions (e.g., diabetes, allergies, arthritis, asthma, hypertension, depression, anxiety, bipolar disorders, etc.)
- Minor illnesses (e.g., colds, sore throats, ear infections, bronchitis, strains, sprains, etc.)
- Elective surgery or surgery scheduled at a time for your convenience
- Long-term management of cancer, renal failure, dialysis, transplants, etc.

Continuation of Care Benefit Enrollment Process

Send your request for CoC in writing via fax to (803) 462-6842, by email: <u>PAI General.appeals Fax@paisc.com.</u> You can also mail it to:

Planned Administrators, Incorporated P.O. Box 6927

Columbia, South Carolina 29260

Attn: Medical Review Staff, Request for Continuation of Care

Upon receipt of the request form, our Medical Review Staff, we will review and evaluate the information. Based upon this initial information, we will inform the member in writing of the decision regarding your request for continuation of care in one of three ways:

- 1. Request approved; or
- 2. Request denied; or
- 3. Request for additional information. Additional information is needed in order to make a final determination.

Although we do our best to expedite the process, the review process takes an average of 10 business days to complete. As part of the review process, whether the request will be approved or denied, PAI's Medical Review Staff will work with the member to identify alternatives for in-network providers, and facilitate the transition of the member's care to in-network providers and facilities.

After an approved continuation of care period has expired, we will reimburse covered services at the out-of-network benefit level.
