

Discover Level Funding with PAI

The Power of Telemedicine and Better Drug Management

With over 40 years of expertise in our industry, Planned Administrators, Inc. is proud to be the trusted third-party administrator for tailored, quality care opportunities like level funded healthcare plans. In collaboration with First Stop Health (FSH), our team is also able to offer seamless access to telemedicine services, taking a new step into the healthcare management revolution.

Telemedicine Services Through First Stop Health

Our members save time and feel better quickly with FSH and 24/7/365 access to caring, licensed physicians. Through the app, website, or over the phone, members can skip the waiting room and annoying paperwork, all while receiving the care they deserve from the comfort of home.

PAI Pharmacy Benefits powered by OptumRx®

Pharmacy spending represents a significant and growing portion of healthcare costs. Optum is an independent company that provides pharmacy benefit management (PBM) services on behalf of PAI. Our pharmacy solution is one of the largest PBM offerings available, with access to 68,000+ pharmacies nationwide and serving more than 13.5 million members. By creating better healthcare connections, PAI Pharmacy Benefits help your members realize improved care, lower costs and a better overall experience.
